E-RETE Reinforced Concrete Septic Tanks have the following advantages over the cast in-situ structures:—

- (a) Speed of construction
- (b) Less field supervision
- (c) Superior quality (made from spun concrete pipes)
- (d) Reduce overall cost

E-RETE Reinforced Concrete Septic Tanks are made with or without filters as required.

*E-RETE R.C. Septic Tank (Round Type)*

The Company reserves the right to alter specifications without notice.
